

## HEALTHY EATING & SUPPORTING LOCAL COMMUNITIES

We strive to provide our guests with the highest quality & safest ingredients, focusing on organic, locally sourced produce, aiming to give back to society as a whole, by supporting fair trade products, social enterprises & charity programs. Our menus offer healthy & balanced options that include nutritious & organic vegetables, herbs & salads. Rayavadee is dedicated to sustainable development & corporate responsibility.

We are proud to offer “Pong Krai” organic forest coffee served during breakfast. The Arabica coffee bean, the product of the Catimor breeding line from Columbia is well-grown under the shade of forest trees with care by the local villagers in Baan Pong Krai, Maerim, Chiang Mai.

In addition, MiVana organic forest coffee, a Thailand-based community initiative, produces award-winning coffee while providing a livelihood for many in small rural communities in Chiang Rai. MiVana coffee is available throughout the day at every restaurant.

## CHARITY

Rayavadee is proud to be a founding partner of the **FOOD4GOOD** charity program, which provides healthy meals for needy children throughout Thailand. As part of its commitment to the program, Rayavadee donates 1 Thai Baht for every dish ordered in every restaurant throughout the year.

## SUSTAINABILITY

Rayavadee is committed to eliminating all plastic bottles & packaging when possible, implementing innovative solutions in the kitchens to avoid use of cling film & plastic packaging by the end of 2023, acquiring biodegradable packing & other materials to the fullest extent. In partnership with our suppliers, finding new alternative solutions to plastic packaging & foam boxes, developing plastic free options & organizing packaging take-back campaigns, Rayavadee is dedicated to recycling or composting all waste materials, when possible, on premises & sending to offsite recycling facilities.

# FARMERS & FISHERMEN

## HERBS & VEGETABLES

Nestled in the rolling hills of Chiang Mai, "Uraiwan" organic farm is committed to producing the highest quality vegetables. Their mission is simple: to grow healthy, delicious & tasty produce in a way that supports the health of their customers & the planet. At their farm, they believe that organic farming is not just a way of growing food, it's a way of life. they use only natural methods to cultivate their vegetables, without the use of harmful pesticides or synthetic fertilizers. By avoiding the use of chemicals & promoting biodiversity, they are able to protect the soil & water, preserve wildlife habitats & reduce their carbon footprint.

## POULTRY, LAMB & EGGS

Rayavadee partners mainly with Thai farmers that humanely raise free-range animals which are naturally grass-fed & guaranteed hormone & anti-biotic free. We recognize that animal welfare is an important part of a responsible food & service supply chain. We are pleased to announce our commitment to source 100% of our eggs from cage-free sources.

## FISH & SEAFOOD

On a small, charming Island in Krabi, the friendly Klonhlu community maintains a simple & modest life, which they are proud to share with visitors searching for an insight into authentic southern Thai culture. The island, called Koh Klang, is surrounded by rich natural mangrove forest with many different fish species. The communities mostly work in coastal fisheries, have fish farms where they raise fish & seafood in a most natural way.

## SALT

"Bo Kluea" (Thai for "natural salt pond") is located in Nan province, far away from the ocean & 2,000 meters above sea level. Local people say that salt production was started in this area some 800 years ago. Apart from farming, the villagers also make a living as salt makers in those rock salt sources on the mountain. It is so incredible that at such a high altitude, Amphoe Bo Kluea has been a significant source for salt production since ancient time.

## ORGANIC PALM SUGAR

In the Satingphra, Songkhla province, People still extract & make organic palm sugar in the same way as the old generations. They use a natural way of making the sugar directly from the tree to prevent the sap fermenting into a sour liquid & cook the sap over charcoal. The taste has natural hints of caramel & smokiness.

## SEASONING

Our seasoning products, such as fish, oyster, light & dark soya, Thai sweet chili sauces are created using well-selected & finest quality ingredients only. By using the most natural ingredients as possible, we provide you the healthiest condiments with the cleanest flavours.

Our seasoning products are guaranteed with no 3-MCDP, no MSG, no color, no preservative, no chemical contaminations & gluten free certified by Coeliac Australia.
