Based on Rayavadee's philosophy towards environmental sustainability & local community support, we are proud to offer Kilo Spirits, a Krabi-based local distillery committed to using fresh local ingredients sourced from small farmers, contributing a low carbon footprint. Kilo Spirits is committed to precisely craft small batches of pure spirits by a thoughtful blend of modern techniques & traditional methods. Our signature Kilo cocktails feature homemade syrups & cordials using natural ingredients, highlighting our shared values of responsibility & sustainability.

ISSAN & SAMUI RUM

Created & distilled in Nong Khai (North-Eastern Thailand) & produced following the great tradition of Agricultural rums originating from the French West Indies, Issan is a pure sugarcane juice rum, made from sugarcane completely peeled by hand before undergoing the pressing process. This singularity gives it a unique sweetness with smooth & floral tasting notes for an agricultural rum.

Samui By Issan (SBI) is a traditional rum created & distilled in Koh Samui & produced from Thai organic molasses. Unlike industrial molasses rum, which is often aromatically neutral, SBI is a rum with character in the spirit & tradition of rums developed by Issan. Distilled with copper pot still, SBI highlights aromas of coffee, banana, caramel & roasted nuts.

FULLMOON BREWWORKS

Established as a brewpub in Phuket in 2010, Fullmoon brewworks philosophy is to innovate all-natural flavorful craft beer that filled with local inspiration. The brewery incorporates local business into its supply chain.

The unique craft beer-making has been recognized on the international stage, received multiple world, European & Australian awards.

CHALONG BAY

Using a traditional copper still imported from France & a centuries-old distillation process, Chalong Bay distillery created a truly original handcrafted rum that binds the traditional French art of distillation with the rich sugarcane heritage of Thailand.

Whilst respecting the tradition of rum making, they use a novel approach that involves innovative craftsmanship, sustainable production & local enterprise.

KOSAPAN DISTILLERY

At Kosapan distillery, they sustainably & ethically sourced raw fruits & botanic from a handful of strictly selected organic growers in Thailand who not only meet their standards but also share the ethos.

Everything is carefully handcrafted from the start to finish.

From harvesting to peeling fruits for mash & fermentation, the alcohol is subsequently double or triple-distilled by hand in traditional French copper alembic stills & aged in limited batches. This French artisanal method is rarely practiced in modern manufacturing process due to its time-consuming nature, however it gives a unique distinctly complex aroma & exceptionally delicate notes.

Rayavadee is delighted to bring you the best of Kosapan Distillery. These 100% natural products & free from any additives

SAI YOK LOCAL MINERAL WATER

At Sai Yok Springs in Kanchanaburi, sustainability flows through every part of their journey. With a deep respect for nature, they embrace gentle practices — reusing, refilling & returning — all powered by the sun & the rhythm of flowing water. Rooted in their local land, their process honors the earth, leaving only the lightest footprint behind.

MIVANA ORGANIC COFFEE

Enjoy this single origin 100% arabica coffee grown in a watershed forest high up in Chiang Mai's untouched mountain range. Every cup of this chemical free coffee contributes to the conservation of forest as well as to the livelihood of many villagers.

CHAIDIM ORGANIC TEA

Chaidim is committed to sustainability in its organic tea production in Northern Thailand. Their approach involves eco-friendly farming practices, including the use of compost & cover crops to enrich the soil, shade trees to create havens for pollinators & fair compensation for smallholder farmers. They also minimise their carbon footprint through sun-withering & plastic-free packaging.

BONS FRÈRES – THAILAND'S PURE CRAFT
