THE ART OF THAI COOKING

THAI INGREDIENTS

Thai cooking uses a wide range of exotic herbs and aromatic spices which boast healing properties that make Thai food not only delicious to eat but good for you as well. Did you know for example that chillies are rich in vitamin C and anti-oxidants and are thought to aid digestion while the creamy-yellow stalks of lemongrass relieve stress and tension and are also effective in fighting the common cold? Kaffir lime and its dark-green leaves add zest to a number of popular curries and are also used in traditional shampoos and in cleansing skin ointments while galangal, a rhizome used in soups and curries is added to drinks to soothe sore throats and cure stomach aches.

Learn more about these and other Thai ingredients with Rayavadee's informative, hands-on cooking classes.
